PERFORMANCE CATEGORIES

The task of evaluating and rating an employee's performance is based on **Standardized Evaluation Guidelines (SEGs)**. Choose the *Categories observed during the rating period* and then select the rating level (Unacceptable, Acceptable, Excels) that best describes employee's performance. You then justify your rating level selection in the comment area.

As guidelines, these definitions serve as a means of program standardization and continuity. The *Performance Trait Reference* serve to better explain each performance observed by the evaluator. This is to justify the selected rating level.

INSTRUCTIONS

The easiest way to complete the report is simply go to the Categories Start Page (page 2). Here you can select a rating level (Unacceptable, Acceptable, Excels) from the dropdown menu for the categories observed during the rating period. All categories will be listed as (Not Observed) until you make a selection.

Once you select a rating level for a category you then indicate your justification(s) for your selection in the comments area located just below the listed category. If you observed a category or justification not listed, indicate your observations on the comment page (page5) of this form. You can also include in the comment area specific incidents and observation dates justifying your selections. If a longer explanation or justification is needed indicate in the category comment area "see comment page".

You'll notice a page number listed next to each category. The page number that corresponds to the Category contains a detailed description of the category with a dropdown menu containing justification phrases for that category. You can then choose the justification phrase from the dropdown menu that best justifies your rating selection of unacceptable, acceptable or excels. You can copy the justification phrase from the dropdown menu and paste into the comment area.

This report should include categories and results observed during this rating period.

Page two, three and four contains a list of Categories and the corresponding pages with Category Dimensions & Explanations. You will only need to **print pages one through five** to maintain employee records (unless additional comment page is needed).
